

## Environmental Policy Statement

Jack Lunn Limited is fully committed to produce and deliver quality professional services and in doing so, recognises that it's day-to-day operations impact on the environment in a variety of ways.

It is the Companies wish to minimise the potential harmful effects to the environment during its activities wherever and whenever this is practicable.

We are committed to achieving environmental good practice within our business activities by:

- Always complying with any existing environmental legislation together with seeking continuous improvement by fully promoting environmental issues and consulting with others for advice and guidance as the need arises.
- Ensuring that none of our work activities will have an adverse effect on the environment, including the prevention of pollution, and will always strive to improve environmental performance.
- Integrate environmental factors into our current and future business decisions.
- Monitoring and working with our supply chain and other third parties associated with our business and setting them similar high standards
- Monitoring the possible environmental effects of all projects at the design stage and put in place suitable measures or take any reasonable practical actions required to protect the existing environment. Where possible we will strive to improve the existing environment.
- Taking every effort to recycle or re-use on site any waste generated through demolition projects to reduce the use of landfill sites.
- Communicating the policy to the management team and within the workforce, to support a positive attitude towards the environment and the reduction of generated waste.
- Continually measuring, monitoring & reviewing the environmental performance of our business activities through management review and setting objectives accordingly.
